CONTENTS

I. PROGRESS IN AMYLOIDOSIS RESEARCH

A BRIEF HISTORY OF INTERNATIONAL SYMPOSSIA ON AMYLOIDOSIS.................. 3
Takahshi Isebe

STATISTICAL ANALYSIS OF AMYLOID ACTIVITIES SINCE 1950
— BASIS FOR AN AUTONOMOUS JOURNAL................................................. 9
Thos. J. Huckle

II. AMYOLOIDOCENESIS

II-1. IMMUNOLOGICAL PROCESS

ANTI-CASEIN ANTIBODIES IN THE SERUM OF PATIENTS WITH AMYLOIDOSIS...... 17
Giampaolo Merlini, Takashi Isebe, Peggy W. Moy,
Maria L. Fiorentini, and Elliott F. Osserman

EXPERIMENTAL SYSTEMIC AMYLOIDOSIS IN MICE—INDUCTION OF AMYLOIDOSIS
BY IMMUNIZATION WITH SYNGENEIC ORGAN EXTRACTS AND
IMMUNOLOGICAL INVESTIGATION...................................................... 23
Yoshino Mori, Bunshiro Akiku, Teruo Mori, Makoto Ogawa,
Shiro Ueda, Hiromichi Yoshida, Isao Kato, Ryozo Azemoto,
Yoko Wakashin, and Masafumi Wakahin

SECONDARY AMYLOIDOSIS ASSOCIATED WITH CHRONIC ARTHRITIS IN RABBITS.... 29
Shigehisa Aoki, Koji Ikuta, Tsunemasu Nonogaki,
and Kiyokazu Nagamatsu

CLONING AND SEQUENCE ANALYSIS OF cDNAs ENCODING MOUSE
C-REACTIVE PROTEIN........................................................................... 35
Shuji Ohnishi, Shuichiro Maeda, Tatsuyoshi Aino,
and Kazunori Shimada

II-2. STRUCTURE

SYSTEMIC AMYLOIDOSIS: TISSUE SPECIFIC VARIABILITY IN THE PRIMARY
STRUCTURE OF AMYLOID PROTEINS......................................................... 41
Mordechai Pras
FOURIER TRANSFORM INFRARED SPECTROSCOPY OF AIR-DRIED AND
HEAVY WATER SUSPENDED AA AND AL AMYLOID FIBRIL
PREPARATIONS OF DIFFERENT SPECIES
A.C.J. van Andel, Th. A. Niewold, E.T.G. Lotz,
J.H. von der Mark, F. Limburg, and E. Gruijs

II-3. SAA and AA

REPLACEMENT OF SAA FROM THE HDL-SAA COMPLEX BY APO AI AND APO AII:
HDL HAS HIGHER BINDING CAPACITY FOR SAA THAN FOR AA
Anne Hasebek, Björn Skogen and Gunnar Rusby

APOSAA AND AA: PRECURSOR AND PRODUCT REVISITED
C. Tapa, R. Tan, M. Neuhoff, and E. Kisilevsky

SAA2 DEPOSITION IN THE SPLEEN OF THE MOUSE
Masahiro Shiroe, El Kawahara, Isao Nakanishi,
and Shunzuke Migitaka

IN VITRO FORMATION OF AMYLOID FIBRILS FROM URINE SERUM AMYLOID
A PROTEIN (SAA)
Satoshi Baba, Katsutoshi Miura, Michio Fujise,
and Haruyuki Shirasawa

INDUCED AA AMYLOID IN EAMSTER: ON THE AMYLOID ENHANCING FACTOR
AND PROTEIN AA-GROSS REACTING COMPONENTS OF INTERMEDIATE
MOLECULAR WEIGHT
Th. A. Niewold, P.C.J. Toeten, A.C.J. van Andel and E. Gruijs

DEPOSITION OF AMYLOID A FIBRILS IN SPLEEN IS ACCOMPANIED BY
DECREASED HEPATIC AND SPLENIC AND INCREASED MACROPHAGE
SERUM AMYLOID A EXPRESSION
Jean A. Stipe, Hanka Yokita, Tsunobu Shirahama,
and Alan S. Cohen

IMMUNOLOCALIZATION OF HEPARAN SULFATE PROTEOGLYCANS TO AA
AMYLOID DEPOSITION SITES IN SPLEEN AND LIVER DURING
EXPERIMENTAL AMYLOIDOSIS
Alan D. Snow, Robert Kisilevsky, and Thomas N. Wight

RENAI PERITUBULAR AMYLOID DEPOSITION IN THE EXPERIMENTAL MURINE
AMYLOIDOSIS
Katsuoshi Miura, Satoshi Baba, and Haruyuki Shirasawa

ULTRASTRUCTURAL STUDY OF THE SPLEEN IN EXPERIMENTAL MURINE
AMYLOIDOSIS USING THE PROTEIN A-GOLD IMMUNOCYTOCHEMICAL
TECHNIQUE
Mutsuo Takahashi, Hiroo Kawane, Tadashi Yokota,
Takeshi Ishihara, Yoshihito Yamashita, Toshikazu Condco,
Hiro Ikeyama, and Fumiya Uchino

EXPERIMENTAL AMYLOIDOSIS OF RABBIT INDUCED BY SAPONIN
Kenji Sano, Masayuki Fujisawa, Masao Hotchi,
and Tomotaka Shinoda

ULTRASTRUCTURAL INVESTIGATION OF SPONTANEOUSLY OCCURRING
AMYLOIDOSIS IN WHITE PEKIN DUCKS
Michio Dobashi, Fumiaki Yuda, and Yutaka Inai
ENHANCED DEGRADATION OF SERUM AMYLOID PROTEIN SAA IX VIVO BY
PROTEOLYTIC ENZYMES.......................................................... 119
J.B. Natvig, B. Skogen, and E. Amundsen

II-4. PROTEOLYSIS OF PREALBUMIN

DEGRADATION STUDIES ON PLASMA PREALBUMIN........................... 125
Martha Skinner, Laureen H. Connors, Herbert M. Kagan,
Phillip Stone, and Alan S. Cohen

PROTEASE AND PROTEASE INHIBITORS IN FAMILIAL AMYLOIDOTIC
POLYNEUROPATHY................................................................. 131
Noritsuki Adachi, Shin-ichi Shoji, Shin-ichi Nakagawa,
Chang-Sung Koh, Naoyuki Tsukada, and Nobuo Yanagisawa

A STUDY OF Dipeptidyl Aminopeptidase IV IN THE SERA OF JAPANESE
FAP PATIENTS................................................................. 137
Satoru Tawara, Hidetsugu Ueyama, Shinichi Ikegawa, Yukio Ando,
Shigehiro Yi, Akira Miyazaki, and Shukuro Araki

III. AL AMYLOIDOSIS

III-1. STRUCTURE

PRIMARY STRUCTURE OF A V K II LIGHT CHAIN FROM A PATIENT
WITH AMYLOID ARTERIOPATHY.................................................. 145
Giuseppina Ferri, Monica Stoppini, Paolo Tadarola,
Vittorio Alberti, Vittorio Perfetti, Maurizio Montecucco,
Edoardo Ascani, and Giampaolo Merlini

MOLECULAR HETEROREGENEITY OF AMYLOID FIBRIL PROTEINS IN PRIMARY
AMYLOIDOSIS..................................................................... 151
Tomotaka Shinoda, Fusuki Kametani, Tatsuyuki Takenawa,
and Takashi Isobe

THE AMINO ACID SEQUENCE OF A CARBOHYDRATE-CONTAINING IMMUNO-
GLOBLIN-LIGHT-CHAIN-TYPE AMYLOID FIBRIL PROTEIN (AL)........ 157
Ole Kristoffer Olstad, Knut Sletten, Kim Toft,
and Per Westermark

STRUCTURAL ANALYSIS OF A LAMBDA LIGHT PRIMARY AMYLOID PROTEIN........ 163
Merrill D. Benson, Francis E. Doulet, Deborah Madura,
and Gary Wheeler

AL AMYLOIDOSIS (NII) WITH INTESTINAL TRACT INVOLVEMENTS
AND THE CHEMICAL ANALYSIS OF ITS BJP (NII, NIG-84).............. 169
Takashi Isobe, Sakan Maeda, Hisashi Fukuzaki,
Tomotaka Shinoda, Hiroshi Tsuchioka, and Fuyuki Kametani

III-2. CLINICAL STUDY

LAMBDA PREDOMINANCE OF BENCE JONES PROTEIN (BJP) IN AL AMYLOIDOSIS
AMONG JAPANESE PATIENTS................................................. 175
Takashi Isobe

IMMUNOHISTOCHEMICAL TYPES OF TISSUES FROM 100 PATIENTS
WITH SYSTEMIC AMYLOIDOSIS........................................... 179
C.G. Cornwall III, B. Thomas, K.A. Kyle, K. Sletten,
and P. Westermark
EXPRESSION OF Plasma Cell-Associated Non-Light Chain Antigens in Patients with Plasma Cell Dyscrasias and Amyloidosis
Alex W. Toog, Jennifer C. Lee, and Marvin J. Stone

Use of Various Electrophoretic Techniques in the Diagnosis and Follow-up of Patients with Al Amyloidosis
Vittorio Bellotti, Eleonora Bucciarelli, Vittorio Perfetti, Claudio Merlino, and Edoardo Ascarì

IV. AA Amyloidosis

IV-1. Structure

The Structure of Protein AA and Its Correlation to the Tissue Distribution of Amyloid
Guilla T. Westmark, Knut Sletten, and Per Westmark

Amino Acid Sequence Composition of AA Amyloid Fibrils in Cystic Fibrosis
Martha Skinner, Ann Pinnette, William D. Travis, Harry Shwachman, and Alan S. Cohen

Phylogenetic Analysis of Amyloid A Protein
Barbara Kluge-Beekman, Merrill D. Benson, Francis E. DeWele, Stephen F. DiBartola, and M. Douglas Benson

Characterization of Serum Amyloid A (SAA) Protein in the SHPEP
G. Marhaug, K. Sletten, and C. Husby

Structural Studies of SAA and AA from Horse and Cow
A. Husebekk, K. Sletten, V. Syversen, P.K. Andersen, K. Rosenvåg,  G. Marhaug, C. Husby, and B. Skogen

IV-2. Clinical Study

SAA versus CRP Serum Levels in Different Inflammatory Conditions, Studied by ELISA Using Polyclonal Anti-AA and Monoclonal Anti-SAA Antibodies
Douwe P.C. Hazenberg, Pieter C. Limburg, Johan Bijzet, and Martijn H. van Rijswijk

Monoclonal Antibody to SAA1-2 Isomer Better Discriminant of the Acute Phase Reaction to Cancer and Monitor of Disease Progression Than the Polyclonal Antibody to Human AA
C. Julian Rosenthal, H. Rotchmer, N. Monlauco, and M.E. Martin

Monoclonal Antibody Against Synthetic Short Peptides Corresponding to Human Amyloid A Protein
Tadaaki Yokota, Tokuhiro Ishihara, Mutsuo Takahashi, Yoashi Iwamitsu, Hiroo Kawano, Shunj Kawamura, Yoshinori Fujinaga, Fumiya Uehira, Nobuo Hanai, Hajime Yoshida, Shinkichi Honda, and Moriyuki Sato

Diagnosis of AA-Amyloidosis Using Monoclonal Antibodies: Application to Paraffin and Ultrathin Sections as Well as to Urinary Sediments
Reinhold P. Linke, Dieter Huhn, and Walter B.J. Nathrath
IV-3. GENE ANALYSIS

STRUCTURE AND VARIATION IN THE HUMAN SERUM AMYLOID A GENE FAMILY... 259
George H. Sack, Jr. and C. Conover Talbot, Jr.

SERUM AMYLOID A: CHARACTERIZATION OF THREE cDNAs IN ONE INDIVIDUAL
AND COMPLETE STRUCTURE OF THEIR CORRESPONDING PROTEIN PRODUCTS... 285
Barbara Klain-Beckerman, Francis E. Dewey, and Merrill B. Benson

REGULATION OF HUMAN SAA GENE EXPRESSION............................................. 271
Patricia Woo and Mark Edbrooke

LOCALIZATION OF AMYLOID SAA GENE EXPRESSION IN MOUSE LIVER
BY IN SITU HYBRIDIZATION................................................................. 277
T. Shidara, S. Shirama, T. S. Sipe, and Alan S. Cohen

RAT LIVER AND LUNG EXPRESS SERUM AMYLOID A RELATED mRNAs............. 283
Rick L. Meek and Earl P. Benditt

IDENTIFICATION OF CELLS EXPRESSING SAA3 mRNA BY IN SITU
HYBRIDIZATION......................................................................................... 289
Earl P. Benditt and Rick L. Meek

DIVERSE GENE STRUCTURE FOR SERUM AMYLOID A PROTEIN IN WILD MICE... 293

V. FAMILIAL AMYLOID POLYNEUROPATHY (FAP): CHEMICAL STUDY

V-1. STRUCTURE OF AMYLOID FIBRIL PROTEIN

TWO NEW DNA-BASED TESTS FOR MUTATIONS CAUSING FAMILIAL
AMYLOIDIC POLYNEUROPATHY................................................................. 301
D.R. Jacobson, M. Fras, D.E. McFarlin, and J. Buxbaum

EPITOPE MAPPING OF TTR (PREALBUMIN) AND TTR (Met30)
WITH MONOCLONAL ANTIBODIES............................................................ 307
Paulo W.P. Costa, Maria Jemio M. Saralva, Bjorn Jakobsson, Peter Biberfeld, V. Peter Collins, and Pedro P. Costa

AMYLOID FIBRIL FORMATION BY POLYMERIZATION OF ABNORMAL TRANSFHYRETIN... 311
Shunsuke Mizuta and Hiroshi Nakashima

V-2. SERUM LEVELS OF precursors

DEMONSTRATION OF TRANSFHYRETIN (PREALBUMIN) VARIANTS IN ITALIAN
KINDREDS WITH FAMILIAL AMYLOIDIC POLYNEUROPATHY........................ 317
Maria Jemio M. Saralva, Pedro P. Costa, M. Rosario Almeida, Angelina Maziakov, Klaus Althoff, A. Fanci, Carol A. Tamakiri, Giovanni Romeo, and Fabrizio Salvi
ABNORMAL TRANSTHYRETIN IN FAMILIAL AMYLOIDOtic POLYNEUROPATHY IN JAPAN AND SWEDEN ........................................... 323
Masayuki Tanaka, Masanobu Nakazato, Teruyuki Kurihara, Shigeru Matsukura, Kenji Kangawa, and Hisayuki Matsuo

ELDERLY ASYMPTOMATIC CARRIERS AND LATE-ONSET CASES OF FAMILIAR AMYLOIDOTIC POLYNEUROPATHY DETECTED BY RADIOIMMUNOASSAY ........................................... 329
Masanobu Nakazato, Masayuki Tanaka, Yoshinori Yamamura, Teruyuki Kurihara, Shigeru Matsukura, Kenji Kangawa, and Hisayuki Matsuo

STUDIES ON THE PATTERN OF NORMAL AND VARIANT PREALBUMIN IN THE CIRCULATION ........................................... 335
Yukio Ando, Shinichiro Ikegawa, Akira Miyawaki, Masaayasu Inoue, Yoshinari Morino, and Shuuro Araki

STUDIES ON TRANSTHYRETIN METABOLISM IN THE NERVOUS SYSTEM ........................................... 343
Maria Joao Mascarenhas Saraiva, Adina Nakev, Eisukata Murakami, William Blazer, Pedro P. Costa, and DeWitt S. Goodman

ALPHA-ADRENERGIC RECEPTORS IN FAMILIAL AMYLOIDOtic POLYNEUROPATHY ........................................... 369
Tetsuro Aruma, Tomoharu Suzuki, Saburo Sakoda, Ryuizo Mizuno, Seiichi Tanjino, Susumu Kishimoto, Shuichi Ikeda, Nobuo Yamanaka, and Akira Nakajima

V-3. GENE ANALYSIS ON FAP

DNA TESTS FOR FOUR PREALBUMIN MUTATIONS IN HEREDITARY AMYLOIDOSIS ........................................... 355
Margaret R. Wallace and Merrill D. Benson

PREALBUMIN GENE EXPRESSION IN CONTROL SUBJECTS AND INDIVIDUALS WITH FAMILIAL AMYLOIDOtic POLYNEUROPATHY ........................................... 361
Shuji Mita, Shinichiro Maeda, Kazunori Shinada, and Shuuro Araki

DIAGNOSIS OF FAMILIAL AMYLOID POLYNEUROPATHY BY RECOMBINATION DNA TECHNIQUES IN RELATION WITH CLINICAL FEATURES ........................................... 365
Toshihide Harada, Shozo Kito, Masanori Shinoyama, Sadao Katayama, Hiroki Fujioka, Hiroku Funura, Kazuji Yoshioka, and Yoshiyuki Sasaki

HAPLOTYPE ANALYSIS OF FAMILIAL AMYLOIDOtic POLYNEUROPATHY: AN EVIDENCE FOR MULTIPLE ORIGINS OF THE Val72Met MUTATION ........................................... 371
Katsujiri Yoshioka, Hiroko Fujioka, Hiroki Sasaki, Hiroyuki Sasaki, Maria Joao Mascarenhas Saraiva, Pedro P. Costa, and Yoshuki Sasaki

DNA POLYMORPHISMS ANALYSIS IN FAMILIES WITH FAMILIAL AMYLOIDOtic POLYNEUROPATHY (FAP) FROM DIFFERENT ETHNIC ORIGINS ........................................... 377
Maria do Rosário Almeida, Katsumi Yoshioka, Hiroyuki Sasaki, Yoshuki Sasaki, Pedro P. Costa, and Maria Joao M. Saraiva

RFLP ANALYSIS OF MUTATED TRANSTHYRETIN IN VITREOUS AMYLOIDOSIS ........................................... 383
O. Sandgren, G. Holmgren, E. Lundgren, and L. Steen

FAMILIAL AMYLOIDOtic POLYNEUROPATHY IN SWEDEN — RFLP ANALYSIS IN PATIENTS AND IN HEALTHY CONTROLS ........................................... 387
Gosta Holmgren, Anita Lindstrom, Ingrid Nordenson, Ola Sandgren, Lars Steen, Birgitta Soresson, and Erik Lundgren
VI. FAMILIAL AMYLOID POLYNEUROPATHY (FAP): CLINICAL AND MORPHOLOGICAL STUDY

VI-1. CARRIER STATE IN FAP

IS THE HOMOZYGOUS STATE FOR HEREDITARY AMYLOID NEUROPATHY (HAN) — TYPE I (PORTUGUESE, ANDRADE) INCOMPATIBLE WITH EARLY INTRAUTERINE LIFE? ................................................................. 413
Jorge Sequeiros and Alda Sousa

FAMILIAL AMYLOID POLYNEUROPATHY: A CLINICAL SCALE FOR THE EVALUATION OF THE PERIPHERAL NEUROPATHY ........................................... 419
Eugénia Macedo, Paula Coutinho, Rosa Morais, and Eduarda Matos

FAMILIAL AMYLOIDOTIC POLYNEUROPATHY: SCREENING OF THE POPULATION AT RISK IN PORTUGAL ................................................................. 425
Pedro P. Costa, and Maria Joao M. Saraiva

FAMILIAL AMYLOID POLYNEUROPATHY (PORTUGUESE TYPE): STUDY OF ASYMPTOMATIC CARRIERS ................................................................. 429
Isabel Leite, Paula Coutinho, A. Viana Pinheiro, A. Guimaraes, Maria Joao M. Saraiva, and Pedro P. Costa

VI-2. LATE ONSET IN FAP

LATE-ONSET FORMS OF FAMILIAL AMYLOID POLYNEUROPATHY (PORTUGUESE TYPE): A PROOF OF CONCEPT ......................................................... 435
Isabel Ribiero, and Paula Coutinho

GENETIC STUDY OF LATE-ONSET IN HEREDITARY AMYLOID NEUROPATHY (HAN) — TYPE I (PORTUGUESE, ANDRADE) .................................. 441
Luisa Lobato, Fernanda Teixeira, Alda Sousa, and Jorge Sequeiros

GENETIC EXPRESSION OF A VARIANT PREALBUMIN IN TYPICAL AND LATE-ONSET JAPANESE FAMILY WITH FAMILIAL AMYLOIDOTIC POLYNEUROPATHY ............................................................................. 447
Shigeo YI, Shukuro Araki, Shinti Kikawa, Shuji Nita, and Masami Ide
VI-3. INVOLVEMENTS IN THE HEART AND THE BRAIN

NATURAL HISTORY OF THE ECG ABNORMALITIES IN FAP PORTUGUESE TYPE: A FOLLOW-UP STUDY WITH ECG, HOLER MONITORING AND INTRACARDIAC ELECTROPHYSIOLOGICAL STUDY ........................................... 453

Luiz Maciel, D. Chumha, A. Oliveira, J. Campos, and Falcao de Freitas

DEVELOPMENT OF HIGH-GRADE VENTRICULAR ARHYTHMIAS IN FAMILIAL AMYLOID POLYNEUROPATHY ................................................................. 459

Minoru Hongo, Shinichi Okubo, Hiroyoshi Yamada, Takuo Misawa, Jun Kono, Saori Iwanami, Osamu Kinoshita, Shozo Kusama, and Shu-Ichi Ikeda

EARLY DETECTION OF AMYLOID HEART DISEASE BY TECHNETIUM-99M-PYROPHOSPHATE SINGLE-PHOTON EMISSION-COMPUTED TOMOGRAPHY: A STUDY WITH FAMILIAL AMYLOID POLYNEUROPATHY .............................................. 465

Minoru Hongo, Takuo Misawa, Jiro Hirayama, Tadashige Fujii, Shin'ichi Okubo, Hiroyoshi Yamada, Jun Kono, Osamu Kinoshita, Shozo Kusama, and Shu-Ichi Ikeda

IMPAIRED LEFT VENTRICULAR DIASTOLIC PROPERTIES IN PATIENTS WITH FAMILIAL AMYLOID POLYNEUROPATHY: A STUDY BY COMPUTERIZED M-MODE ECHOCARDIOGRAPHY .............................................................. 471

Osamu Kinoshita, Hiroyoshi Yamada, Minoru Hongo, Shin'ichi Okubo, Takuo Misawa, Jun Kono, Saori Iwanami, Shozo Kusama, and Shu-Ichi Ikeda

NONINVASIVE EVALUATION OF LEFT VENTRICULAR SYSTOLIC AND DIASTOLIC TIME INTERVALS IN FAMILIAL AMYLOID POLYNEUROPATHY ..................... 475

Jun Kono, Minoru Hongo, Shin'ichi Okubo, Hiroyoshi Yamada, Takuo Misawa, Saori Iwanami, Osamu Kinoshita, Shozo Kusama, and Shu-Ichi Ikeda

MOLECULAR ANALYSIS OF A VARIANT TYPE OF FAMILIAL AMYLOIDOTIC POLYNEUROPATHY (FAP) SHOWING CEREBELLAR ATAXIA AND PYRAMIDAL TRACT SIGNS ........................................................................... 481

Hirokazu Furuya, Kazuji Yoshioka, Hiroyuki Sasaki, Yoshiyuki Sasaki, Masamitsu Nakazato, Kizayuki Matsumoe, Akira Nakadai, Shu-Ichi Ikeda, and Nobuo Yanagisawa

VI-4. MORPHOLOGY ON FAP

MORPHOMETRIC STUDY ON CHANGES IN SURAL NERVES AND COMPARISON WITH CLINICAL MANIFESTATIONS IN FAMILIAL AMYLOIDOSIS .................. 487

Akira Nakadai, Norimao Hanryu, and Nobuo Yanagisawa

SURAL NERVE BIOPSY IN FAMILIAL AMYLOIDOTIC POLYNEUROPATHY: A MORPHOLOGICAL AND MORPHOMETRIC POLYNEUROPATHY .......................... 493

A. Gomes da, A. Vilano Pinheiro, and Isabel Leite

CLINICOHISTOPATHOLOGICAL STUDIES ON NEPHROPATHY OF FAMILIAL AMYLOID POLYNEUROPATHY IN JAPAN .................................................. 499

Nobuo Itch, M. Ida, Shigematsu, Shu-Ichi Ikeda, and Hisao Oguchi

PATHOLOGY OF FAMILIAL AMYLOIDOTIC POLYNEUROPATHY OCCURRING IN KUMAMOTO ........................................................................... 505

Kiyoshi Takahashi, Yoshihiro Kimura, Shigeohiro Yi, and Shukuro Araki
VII. CEREBRAL AMYLOID

VII-1. ALZHEIMER'S DISEASE

A UNIQUE PROTEIN THAT SHARES A COMMON EPITOPE WITH SENILE PLAQUE IN ALZHEIMER'S DISEASE BRAIN. 519
Fuyuki Kametani, Maruta Sato, Tomotaka Shinoda, and Tsuyoshi Ishii

PREPARATION OF A MONOCLONAL ANTIBODY AGAINST A SYNTHETIC BRAIN AMYLOID BETA PEPTIDE (1-10) AND DISTRIBUTION OF AN IMMUNOREACTIVITY IN SERUM. 525
Tomonaka Shinoda, Toshiro Kametani, Ietsuya Hirose, Kazuo Iinuma, and Kazuo Miyahara

BIOCHEMICAL AND MOLECULAR STUDIES OF NATIVE AND SYNTHETIC ε-AMYLOID PROTEIN IN ALZHEIMER'S DISEASE. 531
D. J. Selke, C. L. Joachim, M. M. Podlissky, G. Lee, and L. K. Duffy

ε-AMYLOID cDNA CLONED FROM ALZHEIMER'S DISEASE BRAIN. 537

α-1-ANTICHYMOTRYPSIN, A SERINE PROTEASE INHIBITOR, IS A COMPONENT OF THE AMYLOID DEPOSITS IN ALZHEIMER'S DISEASE. 543
Carmela R. Abraham, Dennis J. Selke, and Huntington Porter

IMMUNOHISTOCHEMICAL STUDY OF ALZHEIMER DISEASE USING ANTIBODIES TO SYNTHETIC AMYLOID AND FIBRONECTIN. 549
Fumihiko Koike, Tatsuhiko Komishita, Hiroshi Nakayama, and Toko Hirota

MONOCLONAL ANTIBODY #34 DETECTS NEW PROTEINS ASSOCIATED WITH SECONDARY AMYLOIDOSIS. 555
Akira Yachi, Kohzoh Imai, Takanori Yamashita, Niwako Sato, Toshioch Sugiya, and Takao Endo

CORPORA AMYLACRA IN AGING AND ALZHEIMER'S BRAIN: IMMUNOLocalIZATION OF CHONDROITIN SULFATE AND HEPARAN SULFATE PROTEOGLYCANS. 561
Alan D. Snow, Henderson Mar, Devid Nechlin, Murray Raskind, and Thomas N. Wight

UBIQUITIN: A NEWLY IDENTIFIED COMPONENT OF PAIRED HELICAL FILAMENTS. 567
Hiromi Mori, Jun Kondo, and Yasuo Ihara

ULTRASTRUCTURE OF AMYLOID FIBRILS IN ALZHEIMER'S DISEASE AND DOWN'S SYNDROME. 573
Takashi Miyakawa, Shooichi Katafuti, and Kenjiro Matsuoka
VII-2. HEREDITARY AMYLOID ANGIOPATHY

AN ISOLATE OF FAMILIES WITH HEREDITARY CYSTATIN C AMYLOID ANGIOPATHY AND CEREBRAL HAEMORRHAGE IN THE SOUTH OF ICELAND.................. 579
Olefrur Jonsdsson, Leifur Thorsteinsson, Astridur Paladottir, Gunnar Gudmundsson, Alfred Arnason, Hannes Blöndal, Magnús Abrahamsson, Anders Grubb, Ísa Olafsson, and Ake Lundwall

DISTRIBUTION OF CYSTATIN C AMYLOID DEPOSITS IN THE ICELANDIC PATIENTS WITH HEREDITARY CYSTATIN C AMYLOID ANGIOPATHY.................. 585
Leifur Thorsteinsson, Hannes Blöndal, Olefrur Jonsdsson, and Gunnar Gudmundsson

STUDIES ON THE CYSTATIN C GENE IN PATIENTS WITH HEREDITARY CYSTATIN C AMYLOID ANGIOPATHY (BCAA) WITH CEREBRAL HAEMORRHAGE........... 591

POSSIBLY "FAMILIAL" CEREBRAL AMYLOID ANGIOPATHY IN JAPAN: IMMUNOHISTOCHEMICAL IDENTIFICATION OF GAMMA-TRACK.................. 597
Shigeyoshi Fujihara, Keichi Shishido, Shotaro Kobayashi, and Ikeguro Tsunematsu

VIII. OTHER TYPES OF AMYLOID

VIII-1. HEMODIALYSIS-RELATED AMYLOIDOSIS

BETA-2 MICROGLOBULIN AMYLOIDOSIS.............................................. 605
Alan S. Cohen, Tsuzumichi Shiuromi, and Martha Skinner

CHEMICAL ANALYSIS OF BETA2-MICROGLOBULIN DERIVED AMYLOID IN PATIENTS ON LONG-TERM HEMODIALYSIS...................... 611
Reinhold P. Linke, Ursula Kunert, Hartmut Lebeck, Harri Lorentz Kumpulainen, and Namfred Eulitz

COEXISTENCE OF B2-MICROGLOBULIN-DERIVED AMYLOID DEPOSITS AND ECTOPIC CALCIIFICATION IN THE HEART OF A CHRONIC HEMODIALYSIS PATIENT.............................. 617
Fumitake Gejyo, Noriyuki Honna, Mihoko Haruyama, Kazuhiko Ohara, and Masaaki Arakawa

B2-MICROGLOBULIN BINDING TO COLLAGEN: AN AMYLOIDIC FACTOR IN CHRONIC HEMODIALYSIS PATIENTS.......................... 623
Noriyuki Honna, Fumitake Gejyo, Masaru Ise, and Masaaki Arakawa

NEW ADSORBENTS FOR EXTRACORPOREAL REMOVAL OF B2-MICROGLOBULIN........ 629
Shigao Furuyoshi, Nobutaka Tanaka, and Ryouchi Nakazawa

VIII-2. CHEMICAL ANALYSIS ON VARIOUS HUMAN AMYLOID

CHARACTERIZATION OF A PREALBUMIN VARIANT IN FAMILIAL AMYLOID CARDIOMYOPATHY OF DANISH ORIGIN.......................... 635
Marianne Nordlie, Knut Sletten, Gunnar Husbys, and Poul Jørgen Rauløw

SENIILE CARDIOVASCULAR AMYLOID: LACK OF EVIDENCE FOR DIFFERENCES BETWEEN AMYLOID FIBRIL PROTEIN AND NORMAL TRANSFERRIN.................. 641
Maria Joao Macarenhas Saraiva, Reinhold P. Linke, Mary Ann Gawinowicz, and DeWitt S. Goodman
AMYLOID FIBRIL PROTEIN IN FINNISH HEREDITARY AMYLOIDOSIS .......... 647
C.P.L. Maury, A.-M. Peppo, A.-L. Karrinhal, and A.H. Koeppen

BIOCHEMICAL CHARACTERIZATION OF AMYLOID PROTEIN IN PRIMARY
LYCHEN AMYLOIDOSIS ............................................. 653
Tomotaka Shiboda, Tatsuyuki Takenawa, Fuyuki Kemetani,
and Chu-K Wong

IMMUNOLOGICAL EXAMINATION OF SENILE AMYLOIDOSIS
OF THE TEMPORAL ARTERY ........................................... 657

ISOLATED AERIAL AMYLOID (IAA): A CARDIAC AMYLOID
OF ENDOCRINE ORIGIN .............................................. 661
E. Johansson, C. Wernstedt, and P. Westmark

THE NATURE OF THE AMYLOID IN THE ISLETS OF LANGERHANS:
A NOVEL POLYPEPTIDE HORMONE? ................................. 667
Per Westmark, Kenneth H. Johnson, Knut Sletten,
Erik Nilander, and Christer Wernstedt

VIII-3. CHEMICAL ANALYSIS ON EXPERIMENTAL AMYLOID

RELATIONSHIPS OF ISLET AMYLOID POLYPEPTIDE (IAPP)
TO SPONTANEOUS DIABETES IN ADULT CATS ....................... 673
R.H. Johnson, T.D. O'Brien, D.W. Hayden, W.C. Mahoney,
C. Wernstedt, and P. Westmark

SERUM CLEARANCE RATE OF SENILE AMYLOID RELATED POLYPEPTIDE
A-11 IS ACCELERATED WITH INCREASING AGE IN SENESCENCE
ACCELERATED MOUSE (SAM) ........................................... 679
Eiichiro Naiki, Keiichi Higuchi, Tomonori Yonezu,
Masanori Kosokawa, and Toshio Takeda

ASAM AMYLOIDOSIS IS PRESENT IN AGING MICE OF MANY STRAINS,
NOT ONLY IN SAM ...................................................... 685
Toshiro Takekada, Keiichi Higuchi, and Masanori Kosokawa

IMMUNOHISTOCHEMICAL STUDIES OF AGE-ASSOCIATED AMYLOID DEPOSITION
IN THE JOURN OF SENESCENCE-ACCELERATED MOUSE (SAM) .... 691
Katsuji Shinizu, Keiichi Higuchi, Mutsuki Matsushita,
Takao Yamamoto, and Toshio Takeda

BIOCHEMICAL AND GENETIC CHARACTERIZATION OF MURINE SENILE
AMYLOIDOSIS ........................................................... 695
Tomonori Yonezu, Keiichi Higuchi, Sumuru Tsunashima,
Fumio Sakiyama, Takahiro Kunisada, Hideo Yamagishi,
Hironobu Naiki, and Toshio Takeda

IX. CLINICAL AND MORPHOLOGICAL STUDY

IX-1. CUTANEOUS AMYLOIDOSIS

POSSIBLE DERIVATION OF CUTANEOUS AMYLOID FROM DEGENERATING
COLLAGEN FIBERS. ULTRASTRUCTURAL, IMMUNOHISTOLOGICAL
STUDIES EMPLOYING ANTICOLLAGEN ANTIBODIES ........................ 703
M. Ishii, K. Fukui, M. Chancki, H. Kobayashi, T. Hamada,
Y. Muragaki, and A. Ooshima
IMMUNOHISTOCHEMICAL STAINING PROPERTIES OF CUTANEOUS AMYLOIDOSIS USING ANTI-KERATIN MONOCLONAL ANTIBODIES.................. 709
Kazufumi Yoneda, Hisayo Watanobe, Makoto Yamagihara, and Shunji Mori

REACTIVITY OF IMMUNOGLOBULINS ON AMYLOID IN LICHENOID AND MACULAR AMYLOIDOSIS WITH EPIDERMAL KERATIN........ 715
Kaoru Ito and Ken Hashimoto

AMYLOID DEPOSITION AND ELASTIC FIBER IN CUTANEOUS AMYLOIDOSIS........ 721
M. Yamagihara, K. Yoneda, H. Watanabe, and S. Mori

AMYLOID IN THE SKIN OF PATIENTS UNDERGOING LONG-TERM HEMODIALYSIS... 727
Mariko Taira, Masaru Ohashi, Akira Ito, and Kazuo Masuko

HISTOCHEMICAL AND ULTRASTRUCTURAL STUDIES ON THE PIGMENT ABNORMALITY IN CUTANEOUS AMYLOIDOSIS.................... 731
Toshio Hamada, Masamitsu Ishii, Yoshio Asai, Shinsuke Suzuki, and Yu-ichi Terao

IX-2. ORGAN AMYLOID

HEPATIC AMYLOIDOSIS (AL): THE NATURAL HISTORY IN 80 PATIENTS........ 737
Morie A. Gertz, and Robert A. Kyle

GASTROINTESTINAL MANIFESTATIONS IN SYSTEMIC AMYLOIDOSIS.............. 743
Takesuke Yoshida, Hidenori Sakamoto, Hiroshi Noda, Teruya Itano, Akiko Higa, Yoshifumi Baima, Seichi Koreishi, Junichi Miyata, Hikaru Kanbe, Yasuaki Heraguchi, and Kenjiro Tanaka

AMYLOID LOCALIZED TO TENDONOVITIS AT CARPAL TUNNEL RELEASE: THE NATURAL HISTORY OF 124 CASES......................... 749
Robert A. Kyle, Stanley G. Elmers, Ronald L. Linscheid, and Thomas A. Gaffey

ANALYSIS OF PARAPROTEIN DEPOSITION IN THE KIDNEY: THERAPEUTIC APPROACH TO RENAL AMYLOIDOSIS......................... 755
Negumi Rishikawa, Wako Yamura, Tsutomi Sanaka, Mitsuyasu Toyoda, Shigeru Horita, Akira Kajita, and Nobuhiro Sugino

IMMUNOHISTOCHEMICAL AND ULTRASTRUCTURAL STUDIES OF AMYLOID DEPOSITION IN SQUAMOUS CELL CARCINOMA OF UTERINE CERVIX...... 759
Toshikazu Kondo, Toshihiro Ishihara, Mutsuo Takahashi, Takeaki Yokota, Yoshibumi Yamashita, Takaaki Nogawa, Hiroi Kawasaki, Yoshito Kamai, Yoshiko Okusono, Fumio Uchino, and Takako Iwata

IX-3. CLINICAL CASE REPORT

AN AUTOPSY CASE OF RECESSIVE DYSTROPHIC EPIDERMOLYSIS BULLOSA COMPLICATING SECONDARY SYSTEMIC AMYLOIDOSIS.................. 765
Shigehiro Yi, Yoshihiro Kimmura, Kiyoshi Takahashi, Kono Eto, Keiko Nomoto, Yoshihiro Maekawa, Tatsuyoshi Arano, and Shokuro Araki

SYSTEMIC AMYLOIDOSIS ASSOCIATED WITH GIANT LYMPH NODE HYPERPLASIA...... 771
Tadashi Kanoh, Hideto Shimada, Atsuo Tanaka, Shiroh Fukuhara, Haruto Uchino, and Kentaro Hatsumura
AMYLOIDOSIS ASSOCIATED WITH SYSTEMIC LUPUS RHEUMATOSUS............ 777
Shigeo Nomura and Tadashi Kanoh

AN AUTOPSY CASE OF SYSTEMIC LIGHT CHAIN DEPOSITION DISEASE (LCHLD): THE RELATIONSHIP BETWEEN LCHLD AND AL AMYLOIDOSIS............ 783
Mitsuyasu Toyoda, Akira Kajita, Sumie Manno, Kei Furiya, Shigeo Kita, and Tomomasa Shinoda

IX-4. MORPHOLOGY

IMMUNOHISTOCHEMICAL CLASSIFICATION OF AMYLOIDOSIS AND IMMUNOHISTOCHEMISTRY OF FIBRILLAR NEPHROPATHY ON ROUTINELY PROCESSED PLASTIC-EMBEDDED TISSUES............. 789
U. Bonini, S. Casanova, P. Zucchelli, and R.P. Linke

HISTOLOGIC CHARACTERIZATION OF AMYLOIDOSIS BASED ON AMYLOID PROTEINS..... 795
Takako Iwata, Tadaaki Yokota, Tokuhiro Ishihara, Mutsuo Takahashi, Toshimi Yamashita, Takaaki Nagasawa, Yoshikazu Gando, Hiroo Kawano, Toshiaki Kamel, Yoshiko Ohsumi, and Fumiya Uchino

THE SUBCUTANEOUS FAT ASPIRATE: A CONTROLLED AND BLINDED EVALUATION OF THE TECHNIQUE IN THE DIAGNOSIS OF PRIMARY AMYLOIDOSIS (AL)...... 801
Moris A. Certz, Chin-Yang Li, Tsuranobu Shirahama, and Robert A. Kyle

THREE-DIMENSIONAL ANALYSIS OF HEART AND KIDNEY IN PRIMARY AMYLOIDOSIS WITH NEURAL INVOLVEMENT........................... 807
Aturo Kato, Hideyuki Hachiba, Kenji Isikawa, and Suzuko Toida

X. THERAPY

X-1. DIMETHYL SULFOXIDE (DMSO) AND COLCHICINE

DMSO THERAPY USING DERMAL APPLICATION TO PATIENTS WITH SYSTEMIC AMYLOIDOSIS................. 815
Takashi Isobe, Junji Matsumoto, Shin-ichi Shimizu, Tohru Fujita, and Takeshi Kashwabara

SYSTEMIC AMYLOIDOSIS: A CLINICAL SURVEY OF 162 CASES............. 821

NATURAL HISTORY OF OGAWA VILLAGE TYPE FAMILIAL AMYLOID POLYNEUROPATHY IN JAPAN........... 827
Masanori Shirouzu, Shozo Kito, Sadie Koyama, Masanori Togo, Yushiro Yamamura, and Toshiko Nakano

COLCHICINE ANALOGUES IN EXPERIMENTAL MURINE AMYLOIDOCENESIS........ 833
Nordechle Davii, Maya Getfried, Jack Bernheim, Baruch Chen, and Arnold Brossi

X-2. PLASMA EXCHANGE

EVALUATION OF SERUM VARIANT PREALBUMIN LEVELS, AND ITS BEHAVIOR AFTER PLASMA EXCHANGE FOR FAMILIAL AMYLOIDOTIC POLYNEUROPATHY (TYPE 1)... 839
Shinichiro Ikegawa, Sumio Tanase, Yosimasa Morino, Shigeo Yi, Yukio Ando, Akira Miyazaki, and Shukuro Araki
PERIODIC PLASMA EXCHANGES IN THE TREATMENT OF FAMILIAL AMYLOID POLYNEUROPATHY: PRELIMINARY RESULTS......................... 845
Taula Coutinho, Eugénia Nacado, Admar Estácio, Albina Sarraiva, Pedro P. Costa, and Maria Jose M. Sarraiva

XI-3. THERAPEUTIC APPROACHES TO PAP

TREATMENT OF AUTONOMIC DYSFUNCTION WITH L-THREO-3,4-
DIHYDROXYPHENYLSEMICARBAZIDE IN PATIENTS WITH FAMILIAL AMYLOIDOTIC
POLYNEUROPATHY: A MULTICENTER STUDY......................... 851
Tomoharu Suzuki, Tsutomu Aruma, Shukuro Araki, Shinichi Ikegawa, Shoza Kito, Hiroaki Minae, Tomoko Namba, Nobuo Yanagisawa, Shu-ichi Ikeda

TREATMENT OF AUTONOMIC DISORDERS OF FAMILIAL AMYLOID
POLYNEUROPATHY WITH L-THREO-3,4-DIHYDROXYPHENYLSERINE........ 857
Takako Kikkawa, Shu-ichi Ikeda, Nobuo Yanagisawa, Masanobu Yama, and Norimae Hanyu

TREATMENT OF ORTHOSTATIC HYPOTENSION IN FAMILIAL AMYLOIDOTIC
POLYNEUROPATHY WITH L-THREO-3,4-DIHYDROXYPHENYLSEMICARBAZIDE..... 861
Shukuro Araki, Shinichi Ikegawa, Shigehiro Yi, Yukio Ando, and Akira Miyazaki

INSULIN FOR NAUSEA IN FAMILIAL AMYLOID POLYNEUROPATHY........ 869
Shin'ichi Shoji, Junko Kamijo, and Nobuo Yanagisawa

PACEMAKER TREATMENT IN FAMILIAL AMYLOID POLYNEUROPATHY........ 875
Kohki Tsuchida, Nobuyuki Azai, Kazuya Akiyama, Manabu Yamada, Shoza Kito, and Yasuhiro Yamamura

PARTICIPANTS......................................................... 879

INDEX................................................................. 881
